### **For This Cause 3**

Malachi 2:14 — Marriage Covenant

The covenant of marriage is a blood covenant. Marriage is honored. God hates divorce. He is the witness.

The blood covenant is consecrated when hymen is broken or it is annulled. We must far exceed the first church and Israel. Our virgins must be virgins in their minds too.

For this cause a person leaves their father and mother's house; because our Father wants a godly offspring, one that is like Him, made back into his image. The reason we leave father and mother and cling to our wife, it is not only we leave our father's authority but we also leave all influences. Our children when they get married must cut off the ungodly influences of their parents, it is like water, it will filter it out, getting purer and purer.

God is witness of man's marriage commitments. This filtering out is undoing of the law where sin is passed on generation to generation. This is opposite with our children, they will get purer and purer. We must cut off the bad from our parents that are in us.

You can't rule a wife with an apathetic husband.

The Edah and us are held back because of these things in us. Only the violent will enter the Kingdom.
