

Kindling a Fire

(Persecution by False Religion)

Persecute means to pursue. False religion makes you kill and destroy. False religion makes you connect yourself to Satan and all his demons. (*Some of our brothers and sisters went to a big ecumenical youth gathering in Paris.*) The spirit that killed in Christianity is still around. It didn't go to the abyss yet.

Ps 83 is so important. It shows how all the religions of the world are going to come down on us some day. *Edom* represents Christianity. Verses 3-5 is an event to happen; it has not happened yet.

Jn 16:1-3 — They will kill us in the name of religion, in the name of God, as in Ps 83. The *religions* are coming together against the community. They think they are doing God a favor. That is a promise. Our Master knows that that spirit is in religion. “If you were of the world the world would love you. If they persecuted Me they will persecute you.” In the future years there will be great opposition against the saints until we go into the wilderness and the 144,000 are sent out and are martyred.

The police, army, and the religion combined together in Paris. The police told us that it would be better for us to go home. If not, they would find something that is wrong with us. Satan is threatened. Police in riot gear came to make sure that we would leave.

Lk 12:49-59 — The fire is going to come. We are kindling a fire. The fire will turn people against each other. That would happen in their families if they would become disciples. That's the result of the fire — people becoming disciples. The only reason why this would happen is because we have the Spirit of Yahshua, *ha Adon YAHSHUA ha Mashiyach*.

Rev 18:2-4 is what is in them. That is what is communicated to those innocent young people. They are going to grow up with it. His people are in them. That's why we have to call them out.

Mt 5:11-12 — There is a spirit that gives you joy in these times. These Christians have a mask on, but when you rile it up their true color comes out — evil. Read Jn 13 -16 and you will see that we will be persecuted. There is still time to get out of this if anybody wants to. You could join the Catholic Church and you won't have any problems, at least until her hour of judgment when she will be burned up.
