

24 January 1993, Morning Sacrifice Brazil

Order

We serve the God of peace, not of disorder or confusion, but of peace. Everything is a ministry of the head. The head is YAHSHUA. The head gives the orders and everything submits to the head. There is a head of the bakery, work crew, kitchen. We honor the head in every way. Wives honor their husbands, children their parents. Even in the assembly, we are in tune with the Head. We give honor to the head in every area of the community. No one would go ask for something to be done in the bakery without going to the head first. Because our God is a God of order, not disorder, but of peace, of shalom. Blessed are the peace keepers. Blessed are the peacemakers for they shall be throughout all of eternity, sons of God. And when the sons of God go to a planet in the universe, they will go to the head there because there are kings (Rev 21:24) in those nations. There will be kings all over the earth and on every planet, and they will first go to the kings. They won't do anything unless they go to the king first.

That's just a helpful hint so there can be order and peace. Blessed are the peacemakers for they shall be sons of God. If we are sons of God, we are going to have order and peace. We say, "Shalom shalom"; we know the Prince of peace, the Prince of shalom.
