

26 December 1992, Breaking of Bread      Brasil

Taught by Elohim

Jn 6:44 No one can come to Me unless the Father draws him and they all come to me and I will raise him up on the last day and they will be taught by the Sovereign. What is He teaching us? What has He taught you lately?

Yaqar — Walk in the light, if we are not liars.

Ish Chadash — Isa 12 The wrath of God is removed from us because of the love of YAHSHUA took his wrath away from us. and our Father is turning us back to the simple things. I have dignity and an objective.

[A few other brothers shared at length, evidencing that the gospel is truly being formed in the brothers here in Naphtali.]

Nathaniel — Our Father looked at earth and saw his highest thought his highest creation the one he created to rule over the universe and he felt pain because he saw men's fallen condition. He had to create a way to rescue man. Man is living totally abnormally today. He made a way of sacrifice for man's sins. But this wasn't enough. He saw the image of his creation — man. The only way he could rescue man was to give the most precious thing he had — His son — to bring us back into the image of God. We were perverted in all of our ways, emotions, and feelings. We were disconnected, lonely people. We had friends and possessions but guilt was heavy upon us and we didn't know the Son of God. Now we rejoice. We had enough faith to call out on His name. We want to be thankful that He extended mercy to man. He made a way for those who want to totally abandon their sins. Who want to be washed. People have got to get out of the environment that causes them to sin and come into the kingdom of light. For the sacrifice he made, we come into being a new nation. A nation of priests under a king — a new society — really. We don't live by our old desires because all of this was cut off at baptism. And he's calling many more people into this. There is something very special happening in all the earth. Our Father is extending His salvation to all the ones who have ears to hear. Let them come now. Don't let the time pass. Don't stay in the stupor. This is the time of salvation.

It is wonderful that we can hear from each other and let everyone know what he is teaching us. What we are being taught by Elohim. If we are disciples we are being taught. Therefore I listen to what you say. By listening to each other, that is how we are taught. Our Father is speaking marvelous things through you, beautiful words coming forth from Naphtali, you are truly going to be a light to South America.

We want to enter the breaking of bread tonight knowing we judged ourselves right; we sought our God because we knew He would save us and He is saving us. The enemy tries to seduce us in every way. To take us away from our simple devotion to our Master and His Spirit. We all break the covenant when we sin. That is why we have to be cleansed. And as a nation, we enter this room tonight — all over the world — so the nation can continue on this week. The nation has not been destroyed but is continuing on this week. The twelve tribes haven't even been given to us yet, but it is progressing until that day when the nation will be born in a day (Isa 66). We are going to sit around a table and a whole nation will be brought to birth. We need to pray that our Father will form the next six tribes. Wherever our Father causes His name to dwell. Pray for it. That our Father can raise them up and that we wouldn't be a hindrance.

If you are a disciple, He is teaching you. If He is not teaching you anything, you are cut off. But He is teaching you because that is part of the covenant that we have, the purpose He has given us. John 6:44,45

We need to eagerly desire prophecy and seek after it, praying that the gift of prophecy would come forth because it is for the edification and for comfort. What we heard from all of you brothers, it edified us, comforted and encouraged us, brought consolation to us. The prophetic word sparks and enlivens us. I'm so thankful that our father is able to start speaking through you. May He fan that flame.
