What Are You Breathing For? Part 1

Are you conscious of your breathing? Do you stop breathing when you sleep? You are more conscious of it when you really need the air. So does that tell us? We know what we are breathing for. Germans say, "Was is der sim des lebes? Shaffe schaffe ahusle bauen." That's all they're living for — a house and a Mercedes Benz. Then finally they got a house and car and then they die. Where do they go after that and spend eternity? What is the question here in Brazil? What do they live for? We have the greatest purpose on earth. We bring about the end of this age and the beginning of the next age. We are to produce the fruit of the kingdom that's coming in advance of its coming or there will not be a kingdom coming. We live as if Satan is already bound. The work of Satan is to destroy the work of God. The work of God is to destroy the work of Satan. We have to destroy the work of Satan.

We have eternal life. Now we have to work for the next age (Heb 10:13). He is waiting for us to put His enemies under His feet. Satan is the king of the world. Therefore we should not continue in the world's problems (Gal 5:19-21). Its not God's fault that the world is full of misery, but people have to come in into God's fold so they can be protected and cared for. They have to come out of Satan's kingdom. The end of the world is coming. All the wars, separation, alienation, disintegration of basic human relationships — all this must come to an end.

Christianity is full of that. They have every sin, and illness on earth. Every denomination wants to be first. This is Satan's sin. If that's in you, then you are not of God (3 Jn 1:9 — Diotrephes). Col 1:18 — There is nothing more important. If we do that today we are led by His Spirit.
